

KAIA QUIGG

Data Analyst | Operations Insights & Business Intelligence

kaia.quigg@gmail.com | 831-383-8189 | LinkedIn | Pawcatuck, CT

PROFESSIONAL SUMMARY

Data Analyst with an M.S. in Data Science and professional experience translating complex operational and scientific data into actionable business intelligence. Proven track record acting as an eager to learn "data storyteller," maintaining meticulous attention to detail to build reproducible analysis workflows, optimize data quality, and deliver user-friendly reporting solutions. Collaborative communicator who partners across teams to ensure data integrity, maintain KPI dashboards, and support operational safety and decision making.

RELEVANT SKILLS

Tools: Python, R, SQL, Tableau, Power BI, Git, Microsoft Excel (Pivot Tables, DAX)

Core Methodologies: Data Analytics, Data Analysis, Validating Data, Data Quality, Data Integrity, Data Structures, Exploratory Data Analysis (EDA), Statistical Modeling, Predictive Analytics, Trend Analysis, Analyze Trends, Forecasting, Ad hoc Analysis, Process Optimization, Workflow Optimization, Reporting Automation, KPI Reporting, Cross-functional Reporting, Technical Documentation

PROFESSIONAL EXPERIENCE

Data Analyst | Viridos | Oct 2021 – Dec 2022

- Processed biological datasets in Python and R to identify trends, automate recurring reporting, and reduce manual processing time.
- Created data visualizations and summary reports to communicate performance patterns and project metrics to cross-functional stakeholders.
- Maintained research record accuracy through validation, cleanup, and standardized documentation of data definitions and processing steps.

Laboratory Assistant | Zoetis | Mar 2020 – Oct 2021

- Streamlined **data collection**, managed high-volume diagnostic data workflows, and **troubleshoot** tracking errors to ensure data quality.
- Streamlined reporting workflows and scheduling processes for time-sensitive laboratory operations, reducing result delivery turnaround times by 20%.

INDEPENDENT PROJECTS | University of Rhode Island | 2024 – 2025

- **Developed Advanced Analytics Models:** Built predictive and statistical models in Python and R using regression, forecasting, and anomaly detection across large-scale environmental datasets.
- **Designed Tableau Dashboards:** Created intuitive visualizations and KPI reports to translate complex data into accessible, visual insights for stakeholder decision-making.
- **Managed Data Pipelines & Infrastructure:** Orchestrated complex **data collection** and **data migration** tasks to transfer raw files into optimized **data structures**, utilizing GitHub for version control and reproducible code.

EDUCATION

Master of Science in Data Science | University of Rhode Island | 2025 | GPA: 3.9

Bachelor of Science in Ecology, Behavior, and Evolution | University of California, San Diego | 2019
